The current pandemic has resulted in a huge amount of change to our lives, working patterns and how we deliver services across the entire NHS. While this is a challenging time for everyone, it is also an opportunity to step back, take stock and review where you are in your career. There may be skills or roles you want to develop, or maybe you want a change of focus that wasn't possible before. Equally relevant whether you are new to the grade or nearing retirement, the aim of this online webinar is to give you an overview to help you to navigate the next steps, including:

- How to identify your development needs and ideas
- How to get started
- How you can use appraisal and job planning to support you
- How the SAS Development Programme can support you

This webinar will be hosted by Dr Patricia Townsley (SAS Education Adviser, NHS Lanarkshire). The 40-minute presentation will be followed by a 20-minute Q&A session in which delegates can put their own questions forward.
