

GPST Quality Improvement Training

DATE & TIME

Cohort dates can be found [here](#)

TARGET AUDIENCE

GPST1s and GPST2 during their GP placement

FACILITATORS

Dr Duncan McNab, Dr Sarah Luty, Dr Gordon Macdonald, Dr Christine Heron and Dr Rachel Keltie

GP specialty trainees are required to complete a small Quality Improvement project during their first 6-month GP placement (GPST1 or GPST2). These projects will be assessed by Educational Supervisors as part of Work Place Based Assessment.

To support this activity, we will provide training for GPSTs during their ST1 or ST2 GP placements. The course will be delivered to cohorts of around 30 trainees from across Scotland and consist of **three 90-minute interactive online tutorials**. Trainees will be expected to complete parts of their project between tutorials to allow discussion and support from their colleagues and facilitators.

You **must** register if you wish to participate. [Register here](#).
