

SAS boot camp timetable: attendees will be split for some sessions into three groups of six (A, B and C)

	Monday 1 November			Tuesday 2 November			Wednesday 3 November		
8.30 am	Registration & coffee (arrive 8.30am for 9am start)			Coffee & welcome (arrive 8.30am for 8.45am start)			Coffee & welcome (arrive 8.30am for 8.45am start)		
8.45 am	Welcome, aims of boot camp, group orientation to simulation ethos, centre layout, equipment etc.			B: Simulation scenarios 3B & 4B ³	C: Ascitic procedures and NG workshop ^{1,4}	A: Central venous access workshop ^{1,4}	C: Simulation scenarios 5C & 6C ³	A: Pleural procedures workshop ^{1,4}	B: Handover and documentation workshop
9 am									
9.45 am	Team activity: Principles of aseptic technique ^{1,2}								
10.45 am	Coffee and refreshments			Coffee and refreshments			Coffee and refreshments		
11 am	A: Simulation scenarios 1A & 2A ³	B: Lumbar puncture workshop ^{1,4}	C: Death and dying workshop	C: Simulation scenarios 3C & 4C ³	A: Ascitic procedures and NG workshop ^{1,4}	B: Central venous access workshop ^{1,4}	A: Simulation scenarios 5A & 6A ³	B: Pleural procedures workshop ^{1,4}	C: Handover and documentation workshop
1 pm	LUNCH			LUNCH			LUNCH		
1.30 pm	B: Simulation scenarios 1B & 2B ³	C: Lumbar puncture workshop ^{1,4}	A: Death and dying workshop	A: Simulation scenarios 3A & 4A ³	B: Ascitic procedures and NG workshop ^{1,4}	C: Central venous access workshop ^{1,4}	B: Simulation scenarios 5B & 6B ³	C: Pleural procedures workshop ^{1,4}	A: Handover and documentation workshop
3.30 pm	Coffee and refreshments			Summary of day 2 and plan for day 3 (4pm finish)			Summary of boot camp with key take home messages and evaluation (4pm finish)		
3.45 pm	C: Simulation scenarios 1C & 2C ³	A: Lumbar puncture workshop ^{1,4}	B: Death and dying workshop	Own time			Travel time		
4 pm									
5.45 pm	Summary of day 1 and plan for day 2 (6pm finish)								

¹ Pre-course video resource provided.

² Attendees will each get an opportunity to observe and rehearse scrubbing and gowning up, and must demonstrate the required standard of asepsis.

³ Simulated scenarios will last approximately 15 minutes, with a 40 minute video-assisted debrief. Each attendee will have the opportunity to start a simulated scenario alone, but help will be available if required.

⁴ The aim is for attendees to reach the level of being ready for directly supervised workplace practice. This will only be achieved in the time available if they engage with pre-course reading packs and video resources.
