

# ROHIT SABHARWAL

Dr Rohit Sabharwal is a facilitator for STEP.

He is a GP partner at the Wards Medical Centre in Kilmarnock. He has been an educational supervisor since 2010.

Dr Sabharwal's other main passion is health and wellbeing, and he is currently developing a lifestyle medicine pilot programme for the East Ayrshire HSCP.

“As a second generation immigrant who grew up and studied in Glasgow, I want to use my experiences to support the development and delivery of STEP as we work to address the challenge of differential attainment”.
