

# Alice Travers

I have been an Associate Adviser for NES since early 2020 and part of my role is to be advisor for the GP retainer scheme in East and South East Scotland  
I have been GP partner in Edinburgh since 2002 and an Educational supervisor for GP trainees since 2007.  
My role is to support GP retainers and retainer practices by overseeing this government backed scheme. I strongly believe that the retainer scheme is a good option for someone to maintain their GP skills during a period of life when they have other commitments and is valuable to maintaining the GP workforce longer term.
