

Inspiring Innovation in Women's and Children's Care

Join us on Tuesday 30th November and Tuesday 7th December from 2.30pm to 4.30pm for two informative online events.

Both events are open to all staff working in Women's and Children's Services in NHS Scotland.

Our programme includes:

“Emerging technologies: where will we be in 2040”
Arnab Das, Head of Corporate Strategy, Intel, USA

“Transforming neurology care through innovation: the vCreate Neuro experience”
Professor Sameer Zuberi

“Drone technologies for the NHS: The clinician's role in a national consortium”
Dr Emily Broadis

“Innovators and clinicians: How do we work together?”
James Roberts, Co-founder and CEO, MoM Incubators

“Challenges and priorities in perinatal care: where can innovation help”
Dr Lesley Jackson, Clinical Lead, National Neonatal Network

“Developing AI to diagnose breast cancer”
Dr Gerald Lip
