Health Education England

National TIPSQI evening event

**Thursday 27th January 2022
18:30-20:30**

Wondering what the quality improvement requirement on your curriculum means? Unsure how QI differs from audit and research? Not sure where to start?

Join us for an evening where we explain what QI is, the methodology that drives it and introduce you to concepts you can implement to get started on your very own project to target the problems you face daily and make a difference to you, your team and your patients!

Aimed at **Foundation doctors**.

FREE event but limited spaces so book early!
Online event – register link:

Learn more about:

- Understanding why a problem is a problem (not just for you)
- What drives a problem
- Engaging others and generating buy-in
- Setting SMART goals and PDSA cycles
- How to collect and display data
- Run charts!

Don't worry if you've not heard of these – that's exactly what we'll be covering in the session 😊
