

Genitourinary Medicine Taster Day 2022

Are you interested in a career in Genitourinary Medicine?

Please join us for a day of talks aimed to give an overview of the speciality.
(Please note this is not a training day)

The plan is for this to be a hybrid virtual/F2F event at Steward House, 32 Russell Square, London, WC1B 5DN – we are currently awaiting confirmation if this can be possible so for the moment it is being delivered virtually.

- Learn about what the specialty involves
- Understand training requirements, the curriculum and how it is delivered
- Find out about research opportunities and out of programme experiences
- Explore a day in the life of GUM SPRs
- Receive an overview of common sexual health and HIV scenarios

Monday 3th October 2022

Virtually currently
0900-1630 (approx)

Registration and admission is free.

Places are limited –

Please apply for study leave

Register via the link below; please use an email you can access from
outside of work:
