# Foundation Programme Curriculum Resource (2021)

This additional resource aims to assist foundation doctors, clinical supervisors, educational supervisors and other key members involved in delivering foundation training, in improving their knowledge and understanding of the generic and clinical topics as set out in the foundation programme curriculum 2021; it is important to note however, that this resource does not provide additional information underpinning every element of becoming a successful doctor. This resource is not exhaustive but highlights national guidance and protocols available to support each of the curriculum's foundation professional capabilities.

HLO 1: An accountable, capable and compassionate doctor

There are a wealth of resources available to help consolidate and develop knowledge and skills to deliver safe and effective patient care. This resource lists many of those freely available evidence-based resources.

HLO 2: A valuable member of healthcare workforce

With helpful web links and guidance notes, it draws on a range of sources including e-Learning for Healthcare (e-LfH), British Medical Journal (BMJ) and Drs.net. Logins are required for all sites.

We hope that you find this additional resource helpful and that it adds value to your training.

The UKFPO are committed to ensuring that this resource is as up-to-date as possible. If you are aware of any expired links within the resource or wish to highlight any other free guidance that could be included please email:

HLO 3: A professional, responsible for their own practice and portfolio development

#### curriculum@foundationprogramme.nhs.uk

This document is intended as an interactive web resource. Printing is not advisable as the resource is updated on a regular basis.

Core Foundation Learning Topics

#### Foundation Professional Capabilities/Core Foundation Learning Topics

1. Clinical Assessment:	3
2. Clinical Prioritisation:	6
3. Holistic Planning:	9
4. Communication and Care:	12
5. Continuity of Care:	15
6. Sharing the Vision:	18
7. Fitness to Practise:	18
8. Upholding Values:	18
9. Quality Improvement:	19
10. Teaching the Teacher:	19
11. Ethics and Law:	20
12. Continuing Professional Development:	20
13. Understanding Medicine:	21
Mental health including mental illness	22
Health promotion and public health	22
Leadership	23
Quality improvement methodology	23
Appraisal of evidence	23
Integration of acute illness into chronic disease management and multiple co-morbidities	23
Frailty	24
End of life care	24
High risk prescribing	25
Teaching skills	25
Patient safety	26
Safeguarding	26
